Note :

- a) The allocation of the number of places / doctoral supervisor is made subject to the condition that the number of doctoral students under supervision (including doctoral students on extension of their studies) is a maximum of 8/12 (max. 20% with the approval of the Senate of the University of Craiova)
- b) In the process of allocating the total number of places put up for competition, a balanced workload for each doctoral supervisor and the institutional strategy for funding priority areas will be pursued.
- c) Total number of places put up for competition per field = sum of the number of places allocated to doctoral supervisors in the respective field.
- d) The number of places available for the competition cannot be increased and is displayed at least 60 days before the admission competition.
